

DJ Josh Field has always been considered fun, outgoing and very personable. At a very young age Josh was exposed to the marvelous sounds of music. Being only 8 years old and watching his father's band practice, Josh became completely captivated with music equipment and the sounds that emerged from the players.

Josh never took to an instrument; instead he bought a set of turntables and learned the art of beat mixing and blending music. Josh found himself spending most of his free time digging through records at yard sales and music stores.

Josh spent 5 years on the club circuit traveling around the US from Boston to Las Vegas. Feeling somewhat unsatisfied, Josh decided to change gears and do something that would impact people's lives - helping create a life-long memory.

Once Josh started performing receptions, he found his niche. Josh's passion for music, lively spirit and uncanny ability to keep his sets sounding great, proved to be a formidable combination that brings energy and excitement to every event. His belief in customer service to the utmost extent, and his ability to adapt on the fly make DJ Josh an excellent choice for any event.
